

# ConASTA 72

Eyes to the Future

July 7 -10 2025

**CONASTA is the premier professional learning experience for teachers of science in primary and secondary schools across Australia.**

ASTA is the federation of the eight science teachers professional associations, from the states and territories of Australia. STAWA (the Science Teachers' Association of WA) will host CONASTA 72 in 2025.

**Dates:** July 7 to July 10

**Venue:** Pan Pacific Hotel, Perth CBD

## Location

The Pan Pacific is centrally located in Perth and their beautiful conference facilities have recently been refurbished. Hosting the conference at a dedicated conference venue will provide a high-level experience for delegates, with all on site workshops being adjacent to the exhibition and catering spaces.

## Special Features for 2025

The offsite workshop day is a unique opportunity to learn about science and STEM education at a range of venues, including Perth Zoo, WA museums, the WA Chem Centre, Engineers Australia and even the Pinnacles Desert.

The *Welcome to WA* function on the Monday is at Scitech – WA's amazing 'hands-on' science centre, and will include Planetarium shows hosted by Brad Tucker, science shows and a showcase of wines from some of WA's finest wine producers.
